For our company HQ in Münster we are currently looking for a

Working Student in Software Development (.NET/Python) (m/w/d)

(Part time: 8 - 20 Hours / Week)

Strengthen our team with your passion for IT and Technology!

Working at XIMEA is more than just the work involved in developing and producing tiny industrial cameras. We supply our cameras to customers all over the world - from Silicon Valley technology giants to small start-ups in the most remote places on earth. XIMEA invests a great deal of time and resources to give a home to the people who are burning to push today's technology. Working as a student at XIMEA means being respected and treated like every other member of the team and having the possibility to learn and to have a long-term career within the company.

Your task:

- Help us streamline our logistics processes to handle the challenges of the constrained global supply chain.
- Implement those processes in a cloud and distributed environment with our Dynamics CRM at the centre.
- Support our team in the development of web and mobile applications used by our international sales team.
- Maintaining and improving the cloud-based section of our infrastructure on Microsoft Azure.
- Develop yourself together with our expertise

What you have:

- Basic experience with object-oriented programming
- Passionate in web and mobile application development
- Interest in cloud programming and architecture
- Fluent written and spoken English would be great

What we offer:

- Interesting and challenging tasks.
- Agile working methodology based on scrum principles.
- Training on software development with the .NET technology stack and Microsoft Azure, as well as JavaScript/TypeScript and React on the frontend.
- Training on software development with Python and the Elasticsearch and Kibana stack.
- Great team with regular events.
- Flexible organisation of working time.
- State of the Art office in a perfect location at the inner harbour of Münster (incl. roof terrace!).
- Free drinks and snacks.

Take the next step in your career and send one of your CV, GitHub Profile, etc. **to jobs-de@ximea.com**. Your contact person will be Henning von der Forst, Human Resources Manager.
